

**Brazos Valley Bombers
Fall 2008 Internships**

We are looking for some great students for the Fall semester to join our team through our internship program. Here are some positions we have available:

Marketing- market research to find our target audience and develop a marketing plan to reach them

Sponsorships- sell sponsorships as well as maintain the relationship with the sponsors we currently have.

Operations- the umbrella position that will look over merchandise, concessions and any other items needed to operate efficiently during the season

Non-Traditional Events- develop new ideas for events to host at the ballpark during the off season, as well as implement those ideas into running the event.

Community Relations- a public relations type position that will work with the media in getting the name of the Bombers out into the community.

This is an internship that will definitely put the students in the driver's seat of their own projects. There is a lot of great experience to be gained and it's a fantastic resume builder. Please have any students that are interested e-mail their resume and cover letter. ashley@bvbombers.com
